

Dynamic Epistemic Logic

B. Nebel, R. Mattmüller, T. Engesser
Summer Semester 2019

University of Freiburg
Department of Computer Science

Exercise Sheet 11

Due: July 17th, 2019, 16:00

Exercise 11.1 (Reading Exercise: False-Belief Tasks; 12 points)

Read the paper *Seeing is Believing: Formalising False-Belief Tasks in Dynamic Epistemic Logic* by Thomas Bolander.¹ You can find the PDF here:

<http://www.imm.dtu.dk/~tobo/bolander2018seeing.pdf>

We will discuss the paper together on the 17th of July in the form of an interactive reading group. Note that on July 10, there will neither be an exercise session nor a lecture. To obtain marks for this exercise, formulate at least three questions that come to your mind when reading the paper and that you would like to discuss in the reading group.

¹Chapter in *Outstanding Contributions to Logic*, vol. 12, Springer, 2018.
