### Game Theory 0. Organizational Matters

Albert-Ludwigs-Universität Freiburg

### Bernhard Nebel and Robert Mattmüller

Summer semester 2019

Rules

# About the Course

#### Lecturers

- Prof. Dr. Bernhard Nebel
  - email: nebel@informatik.uni-freiburg.de
  - office: room 052-00-029
- Dr. Robert Mattmüller
  - email: mattmuel@informatik.uni-freiburg.de
  - office: room 052-00-042

About the

### Exercises

#### Tim Schulte

- email: schultet@informatik.uni-freiburg.de
- office: room 052-00-044

#### **Davif Speck**

- email: speckd@informatik.uni-freiburg.de
- office: room 052-00-030

About the Course

### Time & Place

### About the Course

#### Rules

#### Lectures

- time: Tuesday 16:15-17:45, Thursday 15:00-15:45
- place: building 101, seminar room 00-026

### Exercises

- time: Thursday 14:15-15:00
- place: building 101, seminar room 00-026

Rules

### Course website

http://gki.informatik.uni-freiburg.de/teaching/ ss19/gametheory/

- main page: course description
- lecture page: slides, lecture notes
- exercise page: assignments, software

### Teaching Materials: Books

Osborne & Rubinstein.

A Course in Game Theory.

Main source for the first half of this course. Quite formal.

### Osborne.

An Introduction to Game Theory. Similar content as Osborne & Rubinstein, but less formal.

Nisan, Roughgarden, Tardos, & Vazirani.
Algorithmic Game Theory.
Main source for the second half of this course

## Teaching Materials: Lecture Notes and Slides

lecture notes in English and German:

- en: http://gki.informatik.uni-freiburg.de/teaching/ ss18/gametheory/gametheory\_en.pdf
- de: http://gki.informatik.uni-freiburg.de/teaching/ ss18/gametheory/gametheory\_de.pdf
- (PDFs updated regularly)
- open LaTeX sources (read-only): https://gkigit.informatik.uni-freiburg.de/teaching. gametheory/gametheory-lecturenotes/tree/master

You may use and modify them. If you improve them, we are happy to include and acknowledge your contributions.

- slides available on course website
- additional resources: literature list on course website + ask us!

About the Course

Rules

BURG

Rules

# Rules

SS 2019

### Target Audience

About the Course

Rules

### Students of Computer Science:

- Master of Science, any year
- Bachelor of Science, ~3rd year

#### Other students:

■ advanced study period (~4th year)

Rules

### Course prerequisites:

- no formal required prerequisites
- some familiarity with mathematical notation and theoretical computer science is helpful, familiarity with Python 3 is assumed for the excercises.

### Credit Points & Exam

Rules

- 6 ECTS points
- special lecture in specialization field Cognitive Technical Systems
- oral exam of about 30 minutes for B.Sc. students
- written or oral exam for M.Sc. students (likely written)

Rules

### Written assignments:

- handed out once a week
- due one week later, before the lecture
- discussed in the next exercise session
- may be solved in groups of up to three students
- 8 points per exercise sheet

Exercises

Didactic web-based experiments in game theory:

- See http://gametheory.tau.ac.il/.
- course number and class password will be sent by email
- experiments conducted intermittently (three to five times throughout course)
- about one week time to complete
- discussed in the next exercise session
- must be solved alone (not in groups)
- 4 points per set of experiments

About the Course

Rules

Rules

You can take the exam without any prerequisite! However, you also have to acquire a Studienleistung:

- Points can be earned for "reasonable" solutions to exercises and for participation in web-based experiments.
- At least 50% of points prerequisite for a acquiring the Studienleistung.

### What is plagiarism?

- Passing off solutions as your own that are not based on your ideas (work of other students, Internet, books, ...)
- http://en.wikipedia.org/wiki/Plagiarism is a good intro

### Consequence: no Studienleistung!

- We may (!) be generous on first offense.
- Don't tell us "We did the work together."
- Don't tell us "I did not know this was not allowed."
