

Introduction to Multi-Agent-Programming

A. Kleiner, B. Nebel
C. Dornhege, D. Zhang
Winter Semester 2009/2010

University of Freiburg
Department of Computer Science

Exercise Sheet 1

Due: October 26th, 2009

Exercise 1.1 (The Simulation System)

Install and test the rescue simulation software

- (a) **The group directory (0.5 pt, programming)**
Create a package (directory) for your group. Change the paths to your group directory and compile the program.
- (b) **Run the Simulation (0.5 pt, programming)**
Run the `sampleexplorationagents.sh` until end. Move the log files from `boot` to your group directory.
